

Metals + Architectural Products

Móz Metals

Classic Series

Móz Metals

MATERIALS AND PRODUCTS

Enliven your environment with the dynamic richness and depth of Móz Metal surfaces. Choose from our collection of Standard Colors and Patterns or have us custom match a unique color for use in your special project.

With the availability of Móz Metals in a multitude of standard product offerings and our ability to custom fabricate to your specifications, the design possibilities are truly endless.

Features

- All colors available in all patterns, offering over 300 possibilities!
- Solid-core aluminum for added versatility (various thicknesses available)
- Special finishes for Interiors, High Traffic Areas, and Exteriors
- Gloss and satin finish options

Possibilities

Laminate Sheets

- .040" thick solid-core aluminum
- 4'x8' or 4'x10' standard sheet sizes
- Custom sizes and thicknesses available

Architectural Products

- Column Covers
- Wall Panel Systems
- Ceilings & Canopies
- Móz Wall Weave and Wall Art

Or utilize our **Design & Fabrication Services** to meet your full custom design needs with our ability to roll, form, and fabricate with our solid-core materials.

Green Facts

Móz Metals are 80% Post-industrial Recycled Aluminum. Contributes to LEED 2.0 MR Credit 4 - Recycled Content.

HAND CRAFTED & NATURALLY INSPIRED

THE HEART OF OUR ARCHITECTURAL PRODUCTS

Móz Metals capture the essence of Nature's beauty with the interplay between organic patterns, color, light and movement to bring life to your environments. Each piece is uniquely hand-etched in solid-core aluminum and, as in nature, no two are alike.

Móz Art

Shown: "Fireplace"

Fusion of form and color creates additional shades producing a new work of art with every color and grid selection. The possibilities are limitless.

Shades of Móz

Shades of Móz is a new product, offering 3 or 4 shades of color on a single sheet of aluminum, created by overlaying translucent colors on etched metals.

Custom sizes up to 4'x8' available.

Transparency and Light

When our patterns are combined with perforated materials the results are stunning. The holographic effect in the photo below is enhanced by backing the material with translucent acrylic.

Over 300 Color + Pattern Combinations

All Móz Standard Colors are available with any of the Standard Patterns. **Custom Colors** are also available.

Our vibrant, holographic metals are available in a variety of colors, patterns and special finishes. Móz standard 0.040" aluminum comes in 48"x96" and 48"x120" sheets. Perforated metals are also available. Please visit our website for larger samples, various pattern/color combinations and downloadable PDFs.

Móz Metals are handcrafted, so no two sheets are alike. Colors may vary slightly from lot to lot. Colors in this brochure have been reproduced by offset printing and may vary from the actual color. We recommend obtaining an actual sample of a finish before specifying.

FINISHES

Standard Finish - Gloss

Recommended for light use / decorative interiors.

Applications: Soffits, back walls, canopies, signage, ceiling panels.

PolyCoat - Satin and Gloss

More durable than our standard finish, this automotive-grade topcoat is able to withstand more wear and tear.

Applications: Great for bar fronts, reception desks, and other high traffic areas.

DuraFilm - Satin and Gloss

A high-gloss or satin surface coating that acts as a barrier for painted finishes and is ideal for public and high traffic areas where scuffing or graffiti is a concern.

Applications: Wall panels in public areas such as airports, mass transit, and theatres.

Due to the process of this finish we recommend edge treatments for all exposed edges. Please call us for more details.

TuffCoat - Textured

A textured matte surface coating that acts as a barrier for painted finishes. Highly scratch resistant making it suitable for horizontal surfaces and high-traffic areas.

Applications: Elevator cabs, lobbies, airports, mass transit and theatres. Applications are limited.

Due to the process of this finish we recommend edge treatments for all exposed edges. Please call us for more details.

Exterior Finish

Available in most colors. Production processes do vary depending on exact exterior placements and elements such as direct exposure to sun, climate, or regional location.

Applications: Signage, canopies, column covers, storefronts.

Stainless Steel

Móz patterns also available in 20 ga. stainless steel, a durable, weldable, and sanitary product for a wide range of applications in Móz patterns—colors NOT available.

Applications: Columns, walls, elevator cabs and counter fronts.
